

**Colleen Abdoulah,
President and CEO**

**Discussion Questions
(Part 2)**

1. What do you admire about Colleen?

2. Colleen was discriminated against because she is a woman working in a job that is usually done by men. Have you ever felt discriminated against because of your race, gender, age, religion, or other differences? How did it make you feel and what did you do about it?

3. Colleen doesn't waste time trying to please other people or pretend to be something she is not. Do you think it's important to be true to yourself? Have you ever tried to pretend to be a certain way or say you like something just so others would like you?

4. Colleen loves many things about her job including the people she works with. What kinds of things might make you feel happy with a job you have someday? (e.g., work with lots of different kinds of people, solve puzzles or challenges, work with animals, allow you to travel)?

5. When she doubted herself, Colleen was inspired by her parents. Who inspires you?

Notes:
